## MUSICIAN, PRODUCER & ENGINEER

Usama Siddiq is a Pakistani singer-songwriter and multi-instrumentalist, producer & engineer based in Berlin.

He has been working professionally as a musician, producer and engineer out of his studio in Weissensee.

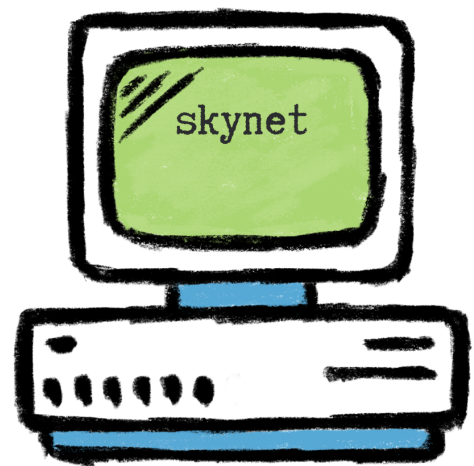

His music is an amalgamation of a number of genres, most notably rock, pop, folk, indie, soul, funk and the blues with eastern undertones and electronic elements.

Mastered by Dan Grigoriu (Studio Moe)

## NEW RELEASE

Usama has just released a full length concept album. The album is titled 'skynet' and contains 11 songs.

It takes inspiration from a number of different genres including rock, pop, soul, funk and electronic music.

In what can be considered fan fiction, the storyline borrows concepts from the Terminator series.
