

SINGLE RELEASE PRESS KIT

"Make You Feel Alright" is a captivating blend of romantic R&B and soul, crafted through the collaborative efforts of Usama Siddiq and LA RONY.

With a soothing melody and heartfelt lyrics, the track is a conversation between two partners. At first, from the perspective of a person who is offering a helping hand, then from the perspective of the other partner who struggles to ask for help. But despite their situation, they only feel at home with each other.
